**Subject:** Draft AO Numbers - revisited

Milka,

The attached WP charts should help fill in the blanks. Note that the PM10 number has changed. For some reason it was not calculated as a 2 year average; - it just used last year's number. Anyway it is correct now.

I'm still not sure what you would like in PTE - please call and we can discuss.

The last chart separates boiler and non-boiler emissions.

If you have questions, let me know. Thanks.
